OUR "EXCLUSIVE EXPERIENCES"

Wildlife Safari has created a number of "Exclusive Experiences" to enhance our "Signature Safaris" or private journeys and these are always provided at no additional cost for our guests. Some activities have been developed with our hotel partners such as special meals at unique locations. Our "Exclusive Experiences" all have real value and we plan to introduce some new and exciting activities during 2010, especially in South Africa.

"BREAKFAST WITH THE HIPPO"

Your dawn game viewing drive in the Masai Mara wildlife sanctuary brings you to the banks of the Mara river where a Masai warrior is waiting to guide you to a clearing overlooking the hippo pools. The staff will prepare and serve your "al fresco" breakfast while hippo and crocodile wallow at a safe distance in the river below. Relax over a leisurely breakfast before your Wildlife Safari 4WD vehicle drives you back to your lodge.

"LUNCH AMONG THE HERDS"

Enjoy an extended day of game viewing where your Wildlife Safari guide has arranged with the chef to prepare and pack a special picnic lunch with a wide selection of cold meats, salads, breads, pastries, fruits as well as your choice of beverages. Spend the morning game viewing before your guide takes you to his "secret spot" where you enjoy a leisurely lunch as the wildlife herds graze in the distance. Afternoon game viewing as you return to your lodge.

"MARA BUSH DINNER"

Drive through the sanctuary, arriving at a designated location to be met by Masai warriors who escort you to your dinner table under the stars while performing their traditional songs and dance. Enjoy a sumptuous barbeque dinner with a mixed grill and selection of salads and vegetables, desserts and fruits. A full bar service is also available. Relax after dinner around the bonfire before returning to your safari lodge while enjoying a night game drive enroute.

"THE COFFEE & TEA EXPERIENCE"

Kenya grows some of the finest quality coffee and tea in the world and you spend an afternoon visiting a local coffee and tea plantation outside Nairobi where you will be guided through every step of the process from bean to cup and leaf to cup, followed by a coffee and tea tasting session. You will receive a coffee and tea gift pack compliments of Wildlife Safari on returning to your Nairobi hotel. This excursion requires a full day at leisure in Nairobi.

"THE AMBOSELI REFORESTATION"

Wildlife Safari & Serena Hotels launched "The Amboseli Reforestation" in 1993 with the aim of planting one million acacia trees in Amboseli and reversing the declining forests at the foot of Mount Kilimanjaro. Every Wildlife Safari guest is invited to plant an acacia tree as part of this award winning conservation project and receive a special certificate as a safari momento.

"KIDS ON SAFARI"

Wildlife Safari has designed a selection of special activities for children of various ages on safari that are educational and fun, in conjunction with our major hotel partners. We do not offer a standard family safari itinerary but prefer to custom design every family safari to suit the particular project and receive a special certificate as a safari momento.
